"I worked very closely with Matt as he guided my leadership team and I through the Organisational Health journey. As a leader, it takes time and commitment to transform your organisation for the better, and I found Matt's energy and enthusiasm for Organisational Health to be contagious, and therefore huge motivating. We have successfully built a more cohesive leadership team and integrated the structured and disciplined Org Health Model into our business. This would not have been possible without Matt's drive and insight, I look forward to continue our work together in the future."

-Michael Henry, State Manager, Environmental, Queensland, ALS

"Matt has been instrumental in implementing our Organisational Health objectives. As an early stage startup that is growing quickly, it was critical to ensure that the foundations of our culture and operating framework were well structured from the beginning as we grow. Matt's work has set us up for success and we look forward to working with him well into the future."
